

Friends of Mossvale Park Master Plan Development - Community Survey

Mossvale Park includes over 400 mapped plants, over 260 different species and named varieties, and a collection of significant, beautiful and widely appreciated trees as well as community infrastructure and assets.

The Friends of Mossvale Park are developing a Master Plan including a 20 year vision for the Park and are seeking the communities views on what they would love to see at the park.

We are seeking local community input into the development of our master plan.

We would love to hear from you!

What is your postcode?	
How often do you visit Mossvale Park? (please tick all that apply)	Regularly (more than once a month)
